

## Homework Y5/6

Your homework for this week is to present a page of information about your hopes and dreams for next year.

Some of you will be beginning at secondary school and some of you will be starting Year 6.

I'd like you to write about what you are looking forward to, what you may be nervous about, what you'd like to become better at and anything else you can think of.

You can write this as sentences, a poster, diagrams, a letter or any other way you would like to complete it. Some ideas are listed below.
